Outstanding bills, including pauper act. (estimated).	230 00

Amount of liabilities, Feb. 22, 1898, \$2,442 13

Assets over liabilities, \$486 68

In addition to the above liabilities, there exists an unadjusted claim between this town and So. Thomaston, of \$150.

There is due from the estate of Matt Johnson to the town, for first claim if received, the sum of \$32.24.

There is also due from the estate of Matt Johnson to the town, for second claim if received, the sum of \$116.86.

EXPLANATORY.

When the present Municipal Officers commenced their duties, they were confronted with pauper bills amounting to over \$400, and at one stroke as it were, one-half or more of the sum raised for the support of poor for the town year of 1897-8, which was \$800, was gone, therefore the Municipal Officers only had a small amount left to pay pauper bills at Poor Farm and other pauper bills outside of same, and in consequence have had to draw largely from other appropriations to pay the bills for the support of the poor, hence the

excess of the expenditures over appropriations for support of poor. The year has been a very hard one for laborers to earn money and some families have had assistance which would not ordinarily, and the bills for support of poor have been larger in consequence. It will be noticed that the support of the poor outside of the Almshouse is large. The Overseers of the Poor would have sent more of the paupers who are in town to the Almshouse but they have thought and still think that it was economy to the taxpayer not to send them there as long as the bills could be kept at a small figure per family.

We have had a very hard and expensive case in the town of Hudson, and the expense is still very heavy. Phineas J. Chaples and wife have both been sick and will not be in a condition for some time to be moved. They required the attendance of a physician for some time. This family has been a heavy burden for the town, over \$1,000 having been paid out for their support previous to our last annual meeting. A strong effort was made by your officers to place their legal settlement in another town. An attorney was sent there and everything done that apparently could be done, but the move was unsuccessful. This action will explain in part the large amount expended for attorney's fees for the year. Several applicants presented themselves for the care of the Almshouse and farm and the only way to give each an opportunity for the position was to award the care to the lowest bidder taking other conditions into consideration. The sum of \$100 was saved for the town by this action, over the sum paid last year. The care was awarded to Mr. Augustus Long and we think he has been a faithful and efficient officer, and worked for the interest of the town financially. He has paid into the town treasury for the sale of butter, pigs, etc., the sum of \$143.17, the same being only \$6.83 less than the amount paid to him as salary. There are many bills to be paid by the taxpayer at the present day that was not known a few years ago, but the Municipal Officers in the discharge of their various duties have endeavored to make the costs as low as possible, and have conscientiously tried to do their duty as regards the best financial interests of the taxpayer. If any change can be made in any way to lighten the burden of taxation, we trust such change may be made at our next annual meeting.

The matter of sidewalks, High school, road commissioner

and town vault will require your careful consideration at our next annual meeting.

Respectfully submitted,

FRANKLIN TRUSSELL,
L. W. SEAVEY,
WM. L. ALLEN,

Selectmen of St George.

St. George, Feb. 22, 1898.

I have examined the above town accounts for the town year 1897-8, and find the same to the best of my knowledge and belief to be correct.

H. F. KALLOCH,

Auditor of Accounts.

St. George, Feb. 24, 1898.

Abatements.

Petit—William L. Allen, Elmer E. Allen.

Money received from license on dogs and paid to the town treasurer, \$109.00.

D. S. SEAVEY, *Town Clerk.*

Report of S. S. Committee.

The following annual report of the Superintending School Committee of St. George is respectfully submitted :

The Committee met for organization March 25, 1897, and elected the following officers : Chairman, Henry Giles ; Supt. of Schools, L. O. Teel. On May 14 L. O. Teel resigned as a member of the Committee, and the vacancy was filled by the appointment of J. H. Hupper. Among the duties assigned to the superintendent were the following : To employ teachers, to purchase text-books, fuel and utensils for the schools, and to approve all bills of school expense.

The Free High School has been held in the building formerly used. This branch of our school system is important and should receive liberal support.

A desirable schoolhouse lot of one-fourth of an acre was purchased at Port Clyde, and the new building completed in time for the Winter term. The schoolhouse is similar to those erected in 1896 at Clark Island and Wheeler's Bay. The appropriation for this purpose having been insufficient, it is recommended that the balance be raised at the next town meeting.

An outbreak of measles in the Tenant's Harbor schools during the Winter term affected the attendance to such an extent that it was thought best to close the Primary and Grammar grades. The lower grade, which was suspended first, has been reopened.

Measures should be taken to improve the school facilities at Tenant's Harbor. The condition of the buildings occupied by the Primary and Grammar schools is a hindrance to efficient work and a menace to the health of pupils and teachers. The pupils in the lower grade are forced to occupy seats which are a source of extreme discomfort, and both school rooms are but poorly lighted and ventilated. Neither of these buildings is worth extensive repairs. The Free High School needs better accommodations. The number of scholars in this village would justify the maintenance

of four grades, and for this purpose we recommend that a suitable building be provided.

The following appropriations for the ensuing year are recommended :

For general repairs to school buildings,	\$100 00
For text books,	250 00
For free High School,	400 00
Balance for school house at Port Clyde,	268 80

EDWIN S. HOOPER,
J. T. ROBINSON,

S. S. Committee of St. George.

St. George, Me., Feb. 19, 1898.

Report of Superintendent of Schools.

To the Superintending School Committee of St. George :

Gentlemen :—I respectfully submit my report for the past year.

The school census corrected to April 1, 1897, shows that there were in town on that date 870 persons between the ages of 4 and 21 years.

The fuel used in the schools has been principally wood, for which contracts were made with several parties early in the year.

Dunton & Clark's Spellers have been adopted for use in place of Watson's which had become badly worn. A change should also be made in the Elementary Geographies, the Arithmetics and the Histories. A limited supply of maps has been purchased and more are needed.

The Wallston scholars have been conveyed to and from Tenant's Harbor for the year. The scholars in Dist. 7 have been conveyed to Dist. 14 during the Winter term only.

Acting under instructions from your board, I have purchased the necessary furniture for the new school house at Port Clyde, and have classified the pupils of the village into two grades.

As a rule, the teachers have manifested a deep interest in their work, and have complied with requirements and suggestions. A few, however, may have failed to some extent in discipline. The ability to govern a school well is a rare accomplishment.

Our most profitable schools have been those conducted by teachers of experience who have had special training for their work. The Free High School under the instruction of Mr. W. H. Mathews has attained its usual success.

In several localities there is a deplorable lack of interest in school affairs. Parents are chiefly responsible for the irregular attendance that is so noticeable in some schools. It is astonishing that so many parents do not value the school privileges for which they are taxed and to which their children are entitled.

I would call attention to the internal arrangements of some of the school buildings in town. In a majority of cases there should be more blackboard surface and better facilities for ventilation; while some of the school rooms need desks which shall be more comfortable and convenient than those now in use.

LIABILITIES OF THE TOWN, FEBRUARY 21, 1899.

Outstanding town orders,	\$1,580 38
Outstanding school orders,	1,555 09
Outstanding road orders, Summer,	22
Outstanding road orders, Winter,	161 00
Amount due common schools,	360 27
Outstanding bills, including pauper acct. (estimated),	100 00

Amount of liabilities, Feb. 21, 1899, \$3,756 96
 Assets over liabilities, \$381 97.

In addition to the above liabilities, there is about seventy-five dollars accrued interest.

In accordance with a vote of the town in March 1898, we herewith submit to you the amounts that will be necessary in our opinion for the different interests of the town.

For town charges,	\$2,250 00
Support of poor,	1,000 00
Repair on school buildings,	250 00
Roads and bridges including road commissioner's services,	1,800 00
Free text books, (see recommendation of superintendent of schools.)	
Roads in winter,	500 00
Plank for sidewalk and crossings,	100 00

GENTLEMEN :—

Again the time has arrived when we herewith submit to you our annual report for your consideration, not however without its usual pleasant and unpleasant features. Several of the appropriations have been exceeded by expenditures; but we have endeavored throughout the town year 1898-9 to make all expenses under our jurisdiction as small as possible, consistent with the requirements of our duty and demands of the law. The bills of the other departments (schools, roads, etc.) will be shown to you by examining the reports. The town has been favored the past year in not having any law suits and large attorneys fees which is a source of considerable gratification, as money expended in that way seems to be money expended without equivalent returns. The condition of the sidewalks as a whole in town for the past year has been a source of considerable anxiety

to the Municipal Officers, they fearing that at any time accidents might occur, and the town become liable for damages as well as law suits. We trust some action will be taken at the coming annual meeting to remedy these dangers in the future.

The same keeper for the Alms House has been employed the past year as was the year before (Mr. Augustus Long) and we think he has been a faithful and efficient officer; kind and sympathetic to that unfortunate class who has to be aided by us. He has paid into the town treasury from various resources the sum of \$123, being only a little less than his salary. Mr. John S. Smalley, collector of taxes, has done as well as could be reasonably expected in the collection of taxes, taking into consideration the low ebb that all business affairs have been in for the past year, and the stringency of the money market generally. It is to be *regretted* that some of our young men who are not married and have no family expenses, but yet enjoy all the privileges that a citizen who pays his taxes enjoys, should be so negligent about paying their own tax. And we think that the collector by instruction from the town should teach them a lesson to be remembered.

Respectfully submitted,

FRANKLIN TRUSSELL,
L. W. SEAVEY,
WM. L. ALLEN,

Selectmen of St. George.

St. George, Feb. 21, 1899.

I have examined the above town accounts for the year 1898-9, and find the same to the best of my knowledge and belief correct.

HENRY GILES,
Auditor of Accounts.

ELMER ALLEN,
Assistant.

St. George, February 22, 1899.

Traverse—Albert G. Rawley, Stephen Gardner.

Nov. 22. Traverse —Hiram Russell, Charles H. Wiley.

Money received from license on dogs and paid to the town treasurer, \$69.00.

D. S. SEAVEY, *Town Clerk.*

Report of Superintendent of Schools.

The following shows the condition of our schools for the year ending Feb. 18, 1899.

Amount available for common schools for past year was as follows:

Amount raised by town,	\$1,992 80
State appropriation,	2,210 92
Total,	<u>\$4,203 72</u>
Whole number scholars, 900.	
Amount per scholar, \$4.67.	

SCHOOL BUILDINGS.

No extensive repairs have been made except at the South side. This building having been in bad condition many years, it was thought advisable to make a thorough renovation, which was done by new sills, floor, hard pine sheathing, black-boards, book case and modern seats. It is now one of the most comfortable and attractive schoolrooms in town. There are now modern buildings in good repair, throughout the town, except at Tenant's Harbor, where the land marks of by-gone years are still doing duty, though dingy, gloomy, uncomfortable, inconvenient and in every way unsuited to the needs of a progressive school. The crying need here is a building for the accommodation of several grades. Pupils and teachers are more interested and capable of better work amid congenial surroundings. I earnestly recommend this subject to your most thoughtful consideration.

BOOKS.

No new text books have been introduced during the year owing to lack of funds. The Arithmetics have been in use many years and new ones are much needed, also Elementary Geographies.

FREE HIGH SCHOOL.

No appropriation being made for the maintenance of this school, a large number of citizens being desirous to present to the young educational opportunities of a higher grade than those afforded by our district schools, very liberally contributed a sum sufficient for its support the past year. Of the very many generous contributions, I would make special mention of the munificent gift of fifty dollars from Hon. J. Edwin Smith of Worcester, Mass. The school under the instruction of Mr. W. H. Mathews, a teacher of wide experience, marked ability, and rare tact, has sustained its former high standard of thoroughness and excellence and the appreciation of the scholars for the advantages given them by benevolent citizens has been shown by close application to work and constant attendance. I sincerely hope that the citizens of the town will see that this school is continued and that an appropriation for its support and continuance will be made such as its success and needs warrant.

TEACHERS.

So far as I have been able to judge the schools have been fully up to the usual standard. This standard should not only be preserved, but raised each term. We need trained, experienced teachers; practical, earnest, energetic men and women, who put thought and study into their work, who from their own resources are constantly developing new and better methods. A large percentage of the teachers of 1898 will not teach in 1899. Raw recruits too often destroy the work of their predecessors. Teaching should be scientific, something more than continually listening to recitations. Much time may be spent in directing study. Pupils must be taught how to use books, how to reason and how to think. Teachers should be cyclopedias of knowledge, should be wide awake and ever on the alert for helpful hints; hence the importance of attending the yearly sessions of the Educational Convention, where teachers are brought in close touch with our best educators and the progressive spirit of the times.

ATTENDANCE.

Every year the average attendance is far below what it should be. Parents and guardians are culpably negligent in this respect. Many children this year have lost golden opportunities and formed habits of shiftless indolence which may never be corrected. Pupils who are not in their places promptly and regularly are annoying hindrances to the effective working of any school.

APPROPRIATIONS.

By advice of the school board I recommend the following appropriations:

For repairs on school buildings,	\$250 00
For text books,	125 00
For free High school,	300 00

[NOTE.] We have authorized the treasurer to call in outstanding orders to the amount of \$2,000.00.

In accordance with a vote of the town in March, 1898, we herewith submit to you the amounts that will be necessary, in our opinion, for the support of the different departments of the town :

Town charges,	\$2,250 00
Support of poor,	1,250 00
Roads and bridges,	1,500 00
Roads in Winter,	500 00
Sidewalks,	250 00

REMARKS :—At the close of this our municipal year, we feel it our duty as officers of the town, to offer a few remarks. In all public offices, where men are chosen to represent the people, or to manage their affairs, their doings are invariably thrown open to criticism, and attacks made upon them that are not justifiable. In conducting the affairs of our town, we have tried to do our duty, without fear or favor; and have acted conscientiously, and honorably, in all matters pertaining to its welfare. We have had a busy year, and our duties have been arduous; but we have met them as they came along, and adjusted each and every matter with due deliberation and thought.

We have tried to keep within our appropriations, and have the financial standing of the town as good as possible and not have it suffer a loss by so doing. Unfortunately we have three patients at the Maine Insane hospital and this you will readily understand, has increased our support of poor out of town. There are matters of this kind that are continually coming up, and over which the municipal officers have no control, that help to increase the burden of taxation. But, fellow citizens, we should never look upon reasonable taxation, for legitimate purposes as a burden, but rather as a pleasure; for without it we could not maintain any form of government. It is a subject that should

be taught in our public schools, that the child may be led to understand that it is the duty of every person who owns property, to contribute his or her share toward the maintenance of our governmental affairs. It becomes us each and every one who claim the rights of citizenship, and enjoy the privileges and blessings that can only come from a good form of government, to take a right and candid view of this matter, and to use his influence to make his town better. So as we come together again to raise money for the support of our town government, let us do so cheerfully and economically; and when we have done this, and the taxes have been assessed and committed to the collector, let us put our hands into our pockets and give cheerfully the part that has been assigned to us.

Respectfully submitted,

WM. L. ALLEN,

L. W. SEAVEY,

C. W. TEEL,

Selectmen of St. George.

St. George, Maine, Feb. 19, 1900.

I have examined the above for the town year of 1899-1900, and find the same to the best of my knowledge and belief correct.

FRANKLIN TRUSSELL,

Auditor of Accounts.

St. George, Maine, Feb. 23, 1900.

Money received from license on dogs and paid to the town treasurer, \$67.00.

D. S. SEAVEY, *Town Clerk.*

Report of Superintendent of Schools.

The following shows the condition of our schools for the year ending February 23, 1900.

Amount available for common schools for past year was as follows :

Amount raised by town,	\$1,992 80
State appropriation,	2,152 87

Total,	\$4,145 67
--------	------------

Whole number scholars, 878.

Amount per scholar, \$4.72.

SCHOOL BUILDINGS.

The school buildings are now in good condition and will compare favorably with those of any town in Knox County. It is very gratifying that I am not again forced to plead for a new building at the Harbor. That cry is hushed, I trust, for many years, by the edifice recently completed—a substantial, commodious, convenient, artistic structure, pleasantly located and thoroughly built, a lasting monument to the unselfish interest of the contractors and to the generosity of the town. I look upon its opening with much pleasure as the beginning of a new and brighter era in our educational life.

FREE HIGH SCHOOL.

This school has been continued through the year. The spring term was under the instruction of Mr. W. H. Mathews, whose valuable services as principal of this department since its establishment five years ago have been such as to cause much regret at his retirement from the educational field. The work was continued through the fall by Mr. L. O. Teel, one of our best citizens, a faithful and efficient teacher. The present term, with the largest number of scholars in its history, commences favorably in its new quarters, with Mr. I. F. Burton, of Colby Univer-

sity, as principal. Too many are indifferent to the advantages offered by our High School. But it is a most important branch of our school system and merits the liberal support of our citizens. Its very existence is a constantly acting force promotive of educational progress and I trust that a liberal appropriation will be granted for the continuation of this school the coming year.

BOOKS.

During the year the old Milne arithmetic so long used in town has been exchanged for a more modern one, the Columbian, which seems to be giving good satisfaction. A few copies of Frye's Elementary Geographies have been purchased, also some supplementary reading.

GRADE AND MIXED SCHOOLS.

The teachers employed have been those of our own town many of whom are graduates of our High School. They have been retained through the school year so far as practicable. They have labored to interest their pupils and the progress in most cases has been very good. The methods of discipline are not always satisfactory to those concerned. Teachers have much with which to contend. The wise management of so many different dispositions is a grave question, and serious mistakes are often made. Indirect methods are helpful but special cases require special treatment. Let it be remembered that a teacher has the same right to control and punish pupils that parents have. Punishment should sometimes be speedy, sure and severe enough to be effective.

ATTENDANCE.

The attendance has been somewhat more regular than last year, still the registers show deplorable carelessness in this particular. Education is a growth, a development. It is acquired only by regular, systematic work and drill. The live, up-to-date teacher makes every moment count and every recitation means something to the regular student, who is trained to be on the alert for points, the foundation for his next day's work. Every day a pupil loses, weakens his work and at the end it has no shape or meaning to him. I very much desire to see parents more

heartily cooperate with the teachers giving them their loyal help and sympathy instead of treating them as targets for the shafts of hasty criticisms. Their united efforts might accomplish wonders. Every pupil might be made to feel that when the schools are in session it is his duty and business to attend promptly and regularly, to study diligently and to obey cheerfully.

APPROPRIATIONS.

By advice of the school board the following appropriations are asked for :

For repairs on school buildings,	\$300
For text books,	150
For Free High School,	400

F. O. BARTLETT,

Superintendent of Schools.

St. George, Me., February 23, 1900.

Town Warrant.

In the name of the State of Maine, you are required to notify and warn the inhabitants of the said town of St. George, qualified by law to vote in town affairs, to assemble at the New School Building, Tenant's Harbor, on Monday, the nineteenth day of March, A. D. 1900, at nine o'clock in the forenoon, to act upon the following articles, to wit:

1. To choose a Moderator to preside at said meeting.
2. To choose a Town Clerk, for the ensuing year.
3. To see if the town will accept the reports of the Selectmen, Town Clerk, Treasurer and Superintendent of Schools.
4. To choose Selectmen, Assessors, Overseers of the Poor, Town Treasurer, a member of School Committee, Superintendent of Schools, Road Commissioner, Tax Collector, Auditor, and all other necessary town officers for the ensuing year.
5. To see what sum of money the town will vote for the support of Common Schools.
6. To see what sum of money the town will vote for the support of the poor.
7. To see what sum of money the town will vote for town expenses.
8. To see what sum of money the town will vote for repairing highways and bridges, in Summer, and clearing roads in Winter.
9. To see what sum of money the town will vote for repairs of sidewalks.
10. To see what sum of money the town will vote to pay per hour, for labor on highways Summer and Winter.
11. To see what sum of money the town will vote for repairs of school buildings.
12. To see what sum of money the town will vote for free text books.
13. To see what sum of money the town will vote for the support of a Free High school.

14. To see what sum of money the town will vote to raise on loan of 1899, for new school building in District No. 19.

15. To see what disposition the town will make of the two old schoolhouses in District No. 19.

16. To see what discount the town will allow on taxes paid before a certain date, fixed by the town.

17. To see what commission will be allowed for collecting taxes, for the ensuing year.

18. To see if the town will vote to furnish free transportation to High School scholars, living a mile or more from the High School building.

19. To see what action the town will take on petition of James H. Barnes and 16 others, relative to providing a school building in District No. 12.

20. To transact other business that may legally come before said meeting.

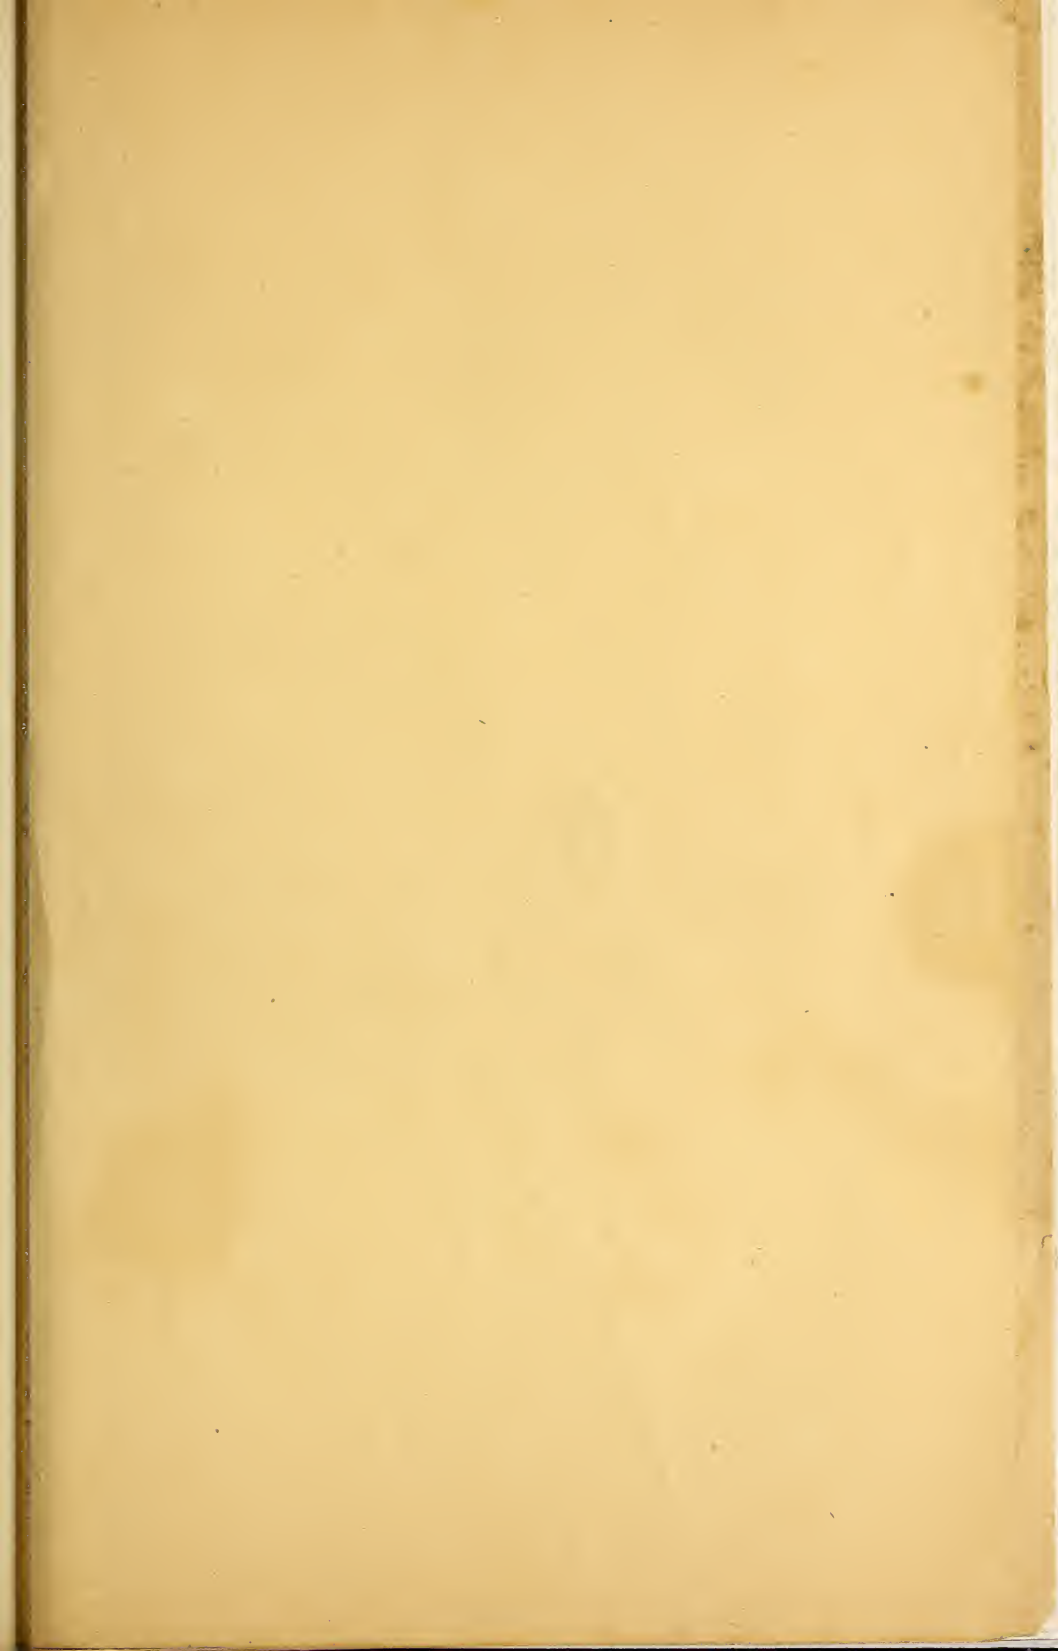

The Selectmen will be in session at the Town Office at 8 o'clock A. M., on the day of said meeting for the purpose of revising and correcting the list of voters.

[NOTE.] In accordance with a vote of the town in March. 1898, we herewith submit to you the amounts that will be necessary, in our opinion, for the support of the different departments of the town :

Town charges,	\$2,500 00
Support of poor,	1,250 00
Roads and bridges,	2,000 00
Roads in winter,	500 00
Sidewalks,	250 00

We wish to say a few words in behalf of the keeper of the Poor Farm for the efficient management both in the house and out of doors. We notice in particular the tidiness of the house, which speaks well for the persons who have had the care of this department. The unfortunate ones at this institution receive the best of care and kind treatment at the hands of Mr. A. A. Long. We wish also to say a few words of encouragement to our tax collector, Mr. A. J. Rawley. We realize that the position which he holds is one of great responsibility, for upon him we depend for our finances. If he does not collect the

money we cannot pay our bills. The collector is a very much abused man at times, always open to criticism. If he does not collect the taxes the cry goes out, why don't he? He has all the power, and then if he uses his power he is censured for that. Then we have a class of persons who have an idea that they have a year in which to pay the tax due from them, when the fact of the matter is this, a tax is due in twelve days after a legal demand is made by the tax collector.

Now it seems to us to be a very unreasonable thing to find fault with a person about the very same thing you have authorized him to do. Mr. A. J. Rawley has made a very large collection this year, aggregating more than twelve thousand dollars, which has enabled the treasurer to call in orders that had been put on interest. So you can see it is absolutely necessary that your collector be a man of energy.

Respectfully submitted,

WM. L. ALLEN,
L. W. SEAVEY,
C. W. TEEL,

Selectmen of St. George.

St. George, Me., Feb. 18, 1901.

treasurer, \$78.00.

D. S. SEAVEY, *Town Clerk.*

Report of Superintendent of Schools

For the year ending February 23, 1901.

Amount available for common schools for past year was as follows:

Unexpended balance, February 19,	
1900,	\$871 56
Amount raised by town,	1,992 80
State and mill tax,	2,187 56
	<hr/>
Total,	\$5,051 92

SCHOOL BUILDINGS.

By advice of the school board a larger appropriation is asked for than last year for the repair of school buildings, very little having been done to them during the past few years, except outside painting.

BOOKS

The book fund for last year was somewhat meager. Many of our sister towns, with but few more pupils and some with less than we have, appropriated double or treble that of our town. If our schools are to be modernized and improved, we must provide the essentials of an up-to-date school.

HIGH SCHOOL.

The High school, under the instruction of Mr. Arthur I. Stuart, has been eminently successful.

Latin and several other features have been introduced, which, with the more congenial surroundings afforded by our new building, have been promotive of gratifying results. In June the senior class will be given the honor of a regular graduation.

I hope and trust that the examinations and exercises will

be such as to give character to the school and to stamp the work as having been practical, earnest and thorough. The appropriations for this department should be generous. The results are far reaching. Our children can be better fitted for their life work or for the higher institutions they may wish to enter. Let us fully appreciate the opportunities which our High school offers to our young people. The aim of this institution is to provide means for our young pupils to acquire a liberal education at home such as can be gotten at any academy or city High school.

This object can be attained if we co-operate in supporting the school in every way, especially by sending our scholars and by giving the teacher our moral support under all circumstances. The demands of the 19th century were very great, those of the 20th century will be greater. Let us provide liberally for a broad and strong intellectual training.

GRADE AND MIXED SCHOOLS.

These schools have been under the instruction of our own teachers, who have shown interest, energy and faithfulness in their several departments. It has been the aim of the school board to continue the same teachers for several terms where satisfaction has been given. It is evident to us all that the best results will be accomplished by carrying out this method.

ATTENDANCE.

I wish I might note marked improvement in this particular, but the registers show about the same lack of promptness and regularity as usual. This evil is a serious one and hinders the progress of our schools more than anything else. When will parents learn wisdom and keep their children in school promptly and regularly! The understanding of each day's lesson depends upon a knowledge of the lessons of the day before. Each day lost places that scholar at a disadvantage which he will not easily overcome. Therefore it is the duty of all parents to see that their children are in school every day.

PETITIONS.

On petition from A. J. Rawley and others asking that a

school be established in District No. 3, the committee voted to recommend that their petition be granted.

Also one from E. A. Clark and others asking that a school house be built in District No. 12. After due consideration the committee voted against said petition, thinking there are too few scholars in the district at the present time.

APPROPRIATIONS.

The school board voted to ask for the following appropriations :

For repairs on school buildings,	\$400 00
Text books,	300 00
Free high school,	350 00

*Winter schools all in session.

F. O. BARTLETT,
Superintendent of Schools.

St. George, Me., Feb. 23, 1901.

Town Warrant.

To John S. Smalley, a Constable of the town of St. George:

In the name of the State of Maine, you are required to notify and warn the inhabitants of the said town of St. George, qualified by law to vote in town affairs, to assemble at Tenant's Harbor, on Monday, the eleventh day of March, A. D., 1901, at nine o'clock in the forenoon, to act upon the following articles, to wit:

1. To choose a moderator to preside at said meeting.
2. To choose a Town Clerk for the ensuing year.
3. To see if the town will accept the reports of the Selectmen, Town Clerk, Treasurer and Superintendent of Schools.
4. To choose Selectmen, Assessors, Overseers of the Poor, Town Treasurer, two members of School Committee, Superintendent of Schools, Road Commissioner, Tax Collector, Auditor, and all the necessary town officers for the ensuing year.
5. To see what sum of money the town will vote for the support of common schools.
6. To see what sum of money the town will vote for the support of the poor.
7. To see what sum of money the town will vote for town expenses.
8. To see what sum of money the town will vote for repairs of highways and bridges.
9. To see what sum of money the town will vote for clearing roads of snow.
10. To see what sum of money the town will vote for lumber for sidewalks.
11. To see what sum of money the town will vote to pay per hour, for labor on highways, summer and winter.

12. To see what sum of money the town will vote for repairs of school buildings.

13. To see what sum of money the town will vote for text books.

14. To see what sum of money the town will vote for the support of a free high school.

15. To see what sum of money the town will vote to raise on town indebtedness.

16. To see what discount the town will allow on taxes paid before a certain date, fixed by the town.

17. To see what commission will be allowed for collecting taxes for the ensuing year.

18. To see if the town will vote to re-establish the school at Wallston, formerly known as Dist. No. 3, (see petition.)

19. To see if the town will vote to build a school house in Dist. No. 12.

20. To see if the town will vote to purchase a treasurer's bond.

21. To see what disposition the town will make of the old school house at the Head of the Lane, so called, also a small building at the back of the new school building in Dist. No. 19.

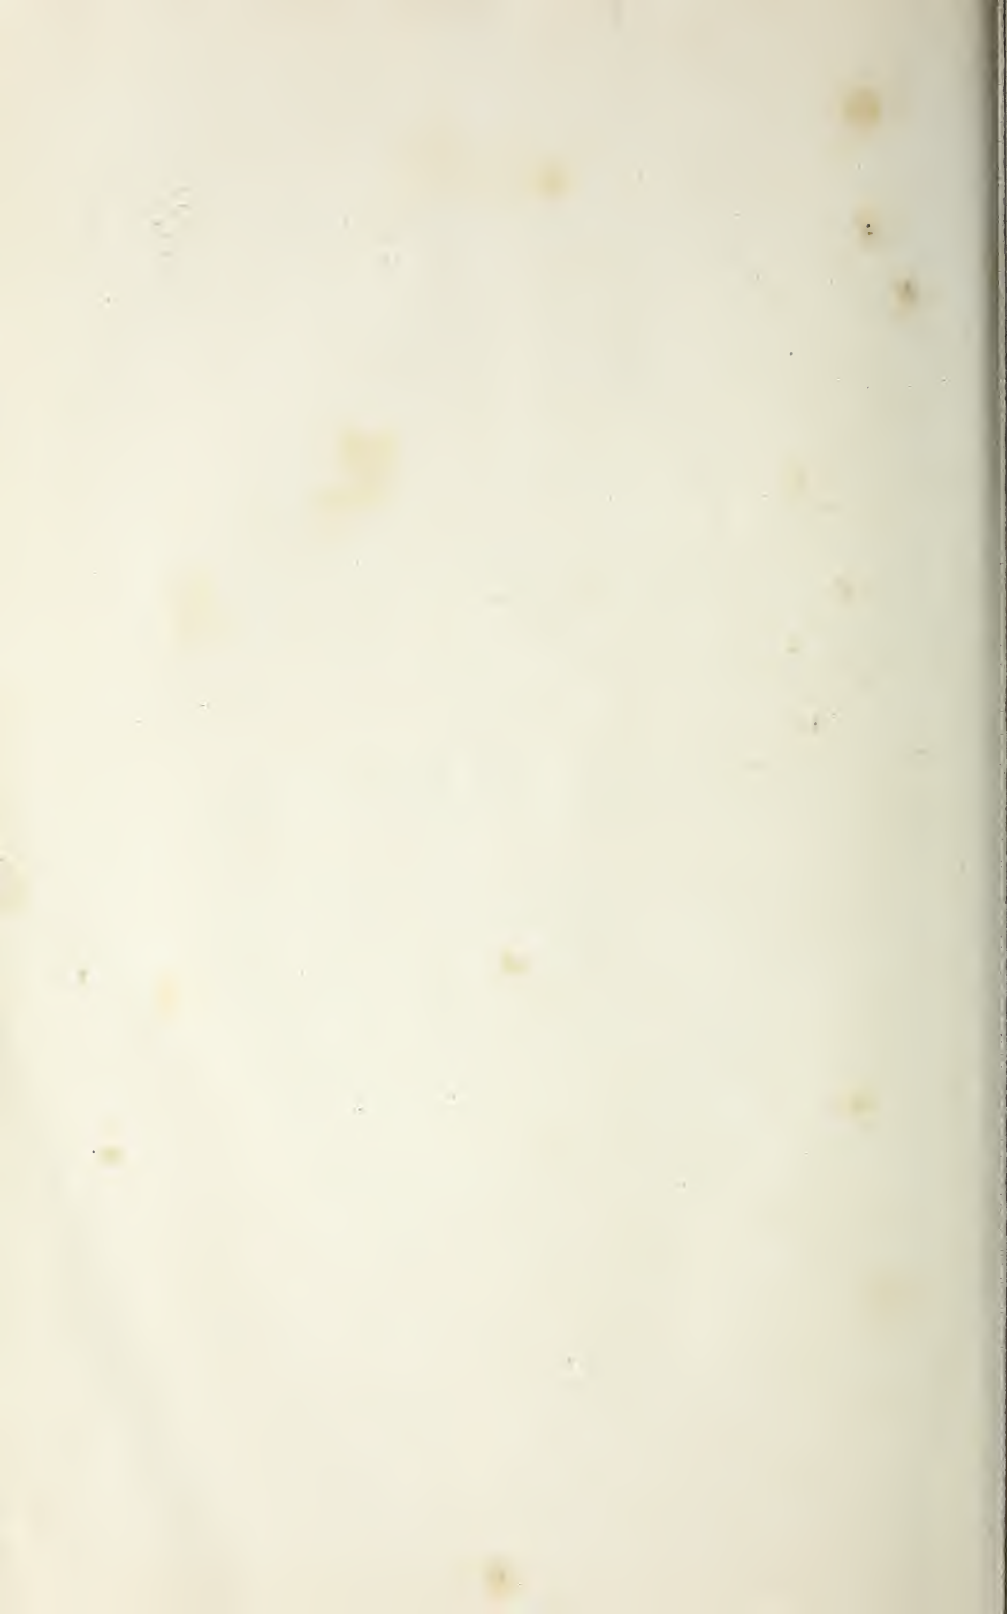

22. To see if the town will vote to sell the property acquired by tax deeds, formerly owned by heirs of Alfred Watts and heirs of Joseph Wagle.

23. To see if the town will vote to exempt the property to be erected by Wm. Brennen for a sardine factory from taxation for a period of five years.

24. To see what action the town will take toward regulating the taking of clams.

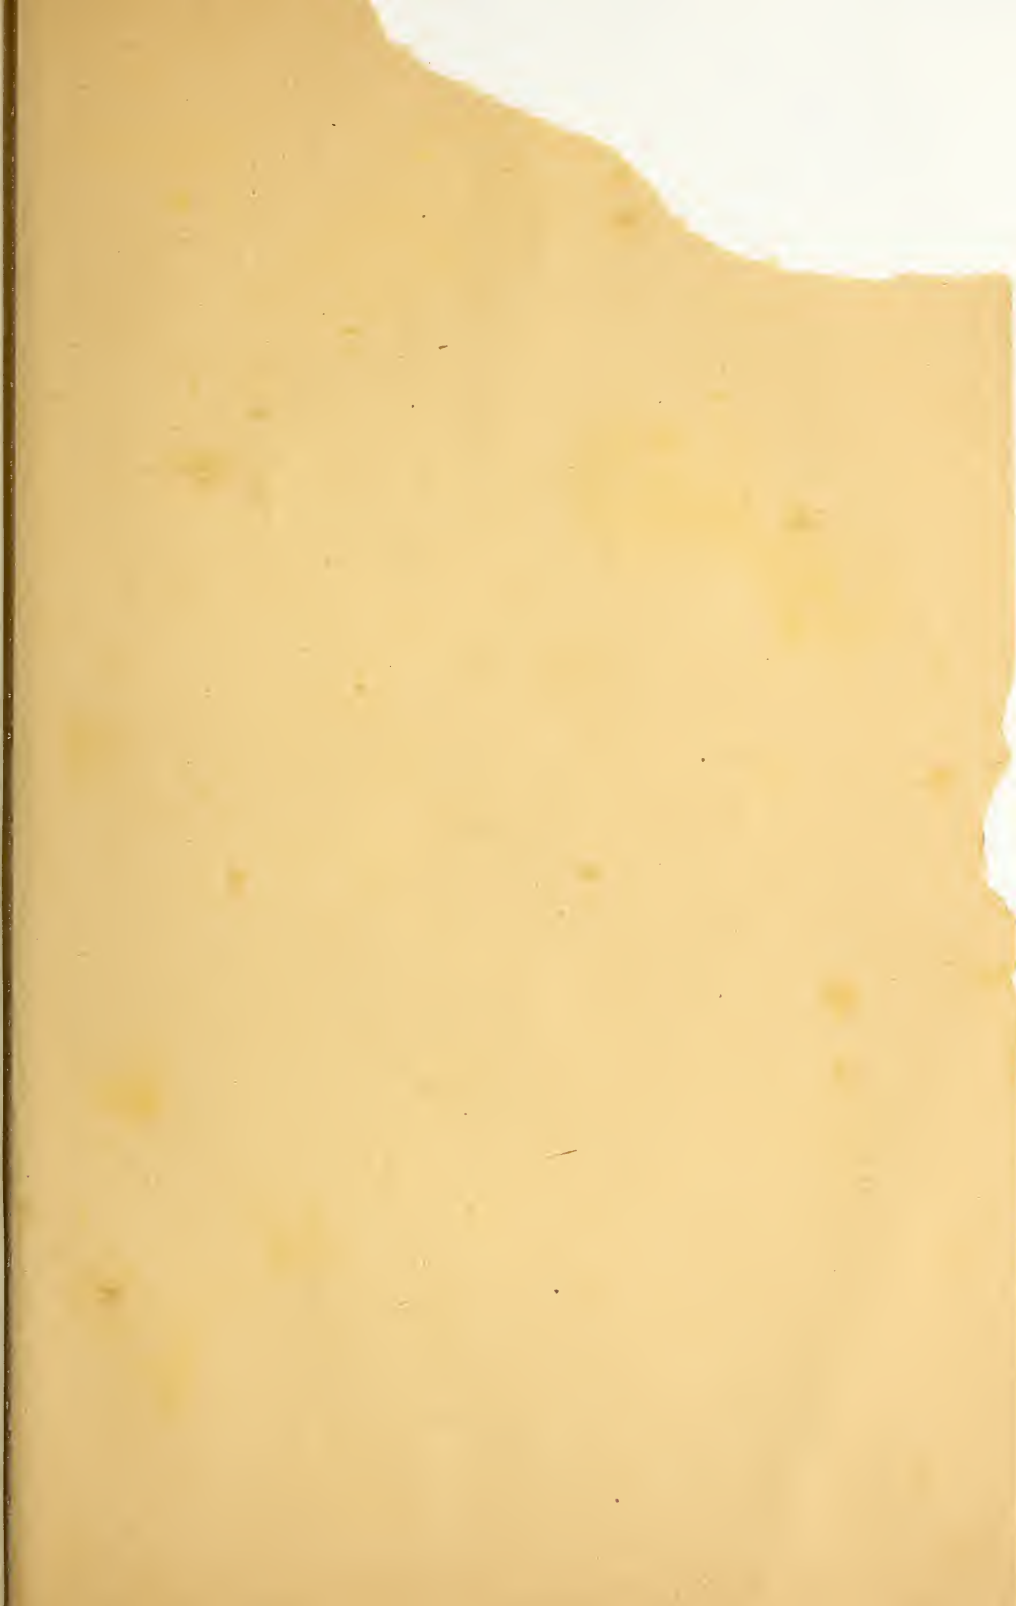

25. To transact any other business that may come before said meeting.

WM. L. ALLEN,
L. W. SEAVEY,
C. W. TEEL,
Selectmen of St. George.
